

Case File 02: Riverside Residency Negligence Claim

Matter Summary

This fictional civil case file summarizes a residential injury claim involving alleged maintenance negligence, notice failures, and disputed remediation timelines. It is designed as a complex, multi-page document with structured exhibits and tables.

Field	Value
File Number	RR-CIV-2026-118
Matter Class	Premises liability
Filing Stage	Pre-trial preparation
Venue	District Civil Court
Claimant	Elena D'Souza
Respondent	Riverside Residency Owners Association
Incident Date	2025-11-18
Status	Discovery ongoing

Core Allegations

Allegation ID	Allegation	Claimant Position	Respondent Position
A1	Stairwell leakage persisted for weeks	Multiple complaints ignored	Condition addressed within reasonable time
A2	Warning signage absent on incident date	No barricade or caution sign present	Signage installed earlier that morning
A3	Prior slips established foreseeability	Building had history of similar incidents	Prior events were unrelated and minor
A4	Medical harm worsened by delayed response	Assistance arrived late	Staff responded promptly

Incident Timeline

Date/Time	Event	Source
2025-11-02	First maintenance ticket for seepage	Building maintenance log
2025-11-09	Resident complaint via email	Resident welfare inbox export

Date/Time	Event	Source
2025-11-15	Contractor visit recorded	Security gate register
2025-11-18 07:40	Alleged slip and fall at Stairwell B	Claimant statement
2025-11-18 07:52	Security notified	Phone log extract
2025-11-18 08:21	Ambulance arrival	Hospital intake note
2025-11-27	Legal notice served	Counsel dispatch record

Medical and Damages Table

Category	Claimed Detail	Amount (INR)	Supporting Record
Emergency treatment	Initial hospital care	48,500	Intake and billing summary
Follow-up orthopedics	6 consultations	22,000	Clinic invoices
Diagnostic imaging	X-ray and MRI	31,500	Radiology receipts
Lost earnings	19 workdays	86,000	Employer certificate
Pain and suffering	Non-economic damages	350,000	Claimed, disputed
Future therapy	12 sessions projected	24,000	Medical recommendation letter

Witness Matrix

Witness	Role	Expected Testimony	Credibility Notes
Elena D'Souza	Claimant	No warning sign, slippery surface	Directly interested party
Manoj K.	Security Guard	Call received after fall, area damp	Times vary across statements
Asha Paul	Resident	Saw recurring leakage earlier in week	Independent witness
R. Thomas	Maintenance Supervisor	Work order created and contractor informed	Documentation incomplete
Dr. Neeraj Singh	Treating physician	Injury consistent with fall mechanics	Limited to medical causation

Exhibit Index

Exhibit	Description	Format	Status
EX-C1	Resident complaint emails	PDF export	Reviewed
EX-C2	Maintenance ticket history	CSV printout	Reviewed
EX-C3	CCTV preservation request	Letter	Sent
EX-C4	Hospital discharge summary	Medical record	Reviewed
EX-R1	Contractor attendance log	Scan	Reviewed

Exhibit	Description	Format	Status
EX-R2	Safety signage photograph	JPEG	Authenticity disputed

Liability Analysis

Issue	Claimant Argument	Respondent Argument	Current Assessment
Notice	Complaints gave actual notice	No severe hazard reported	Claimant currently stronger
Breach	Area left unsafe without warning	Reasonable maintenance steps taken	Fact-sensitive
Causation	Wet surface directly caused fall	Injury may involve prior condition	Mixed evidence
Damages	Medical losses documented	Claimed non-economic figure excessive	Partially supported

Procedural Tasks

- Finalize interrogatory responses regarding prior stairwell complaints.
- Obtain certified hospital records and imaging summaries.
- Authenticate CCTV retention status and gap periods.
- Reconcile maintenance logs with contractor access records.

Draft Questions for Cross-Examination

Target Witness	Question Theme	Purpose
Maintenance Supervisor	Delay between complaint and repair	Show unreasonable response time
Security Guard	Exact timing of notification	Test reliability of timeline
Claimant	Footwear and visibility conditions	Explore contributory negligence
Contractor	Scope of pre-incident visit	Determine whether hazard was inspected

Analytical Note

The central dispute is likely to turn on notice and the adequacy of hazard warning measures. Documentary consistency favors the existence of a recurring moisture issue, while the exact condition of the stairwell at the moment of the incident remains contested. This sample is structured to produce a realistic, table-heavy, multi-page legal-style PDF when exported.
